

INSTALLATION INSTRUCTIONS

BATTERY COVER MUSTANG 05-UP

This kit has been specifically designed to fit the 05-Up Ford Mustang top post stock batteries. It could face either the front of the car or the firewall. Included is all the necessary hardware to secure it in place. The cover as supplied is raw aluminum. It can be polished, anodized, painted or powder coated to your liking. We thank you for buying our product.

CAUTION: USE CARE WHEN INSTALLING THE BATTERY COVER SO THAT IT DOES NOT COME IN CONTACT WITH THE BATTERY POSTS.

PARTS LIST	
DESCRIPTION	QTY
COVER	1
FASTENER TAPE (HIGH DENSITY)	8"
FASTENER TAPE (MEDIUM DENSITY)	8"
RUBBER EDGING	41"

REPARING COVER

1. Cut both densities of the Fastener Tape into 4 pieces 2" long.
2. Protect cover from being scratched and rest it on a work surface.
3. Clean inside of cover with rubbing alcohol.
4. Install Rubber Edging around each terminal opening of the cover leaving no gaps. **(Figure 1)**

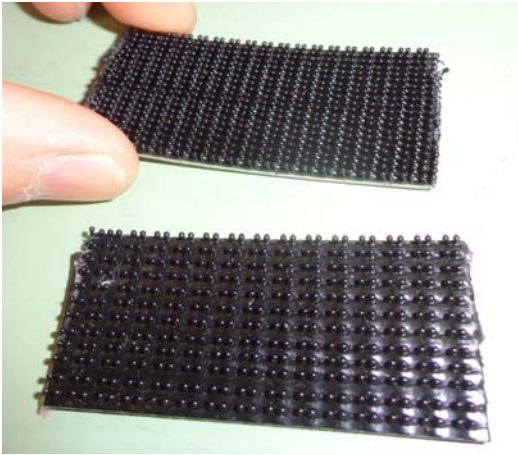

Figure 2

Figure 3

PREPARING BATTERY

1. Disconnect the battery cables and secure them out of the way.
2. Clean battery posts.
3. Clean the top of battery so that it is dirt and grease free.
4. Peel off backing and apply the four 2" pieces of the High Density Fastener Tape (piece being held in **Figure 2**) to the battery as shown: **Figure 3**.

INSTALLING COVER

1. Mate both pieces of the Medium Density Fastener Tape to the tape already applied to the battery.
2. Peel the backing from the mated Fastener tape.
3. Slide cover over battery taking care to not contact the battery posts. Be sure that the battery-insulating sleeve is not sliding down and interfering.
4. Press and hold cover against the Fastener Tapes for 1 minute. You do not want to remove the cover for over 24 hours.
5. Route and reconnect the battery cables making sure that they do not contact cover.
