

**BOLT-ON VALVE COVER FITTING
P/N 68842**

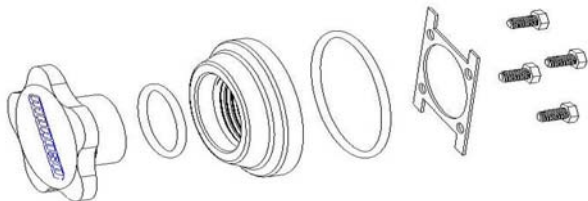

PARTS LIST

FILL CAP
FILL CAP O-RING
THREADED FITTING

LOCKING PLATE
10-24 SCREWS (4)
O-RING FOR FITTING

INSTALLATION

Select a location for the fitting on a flat surface. Use the steel locking plate as a template for laying out the locations for the holes. Use a 13/64" drill for the screws and a 1.250" hole saw for the center opening. Once the holes are made, de-burr and clean them. Assemble the fitting as shown in the illustration below. Once the fitting has been secured, bend the tabs of the locking plate up and over the bolt heads.
