

SWITCH PANEL P/N 74183

INSTALLATION INSTRUCTIONS

1. Disconnect battery before beginning installation
2. Select a location for mounting each of the panels (1 Switch Panel, 1 Breaker Panel). The panel plates can be used as templates if desired.
3. After you have finished preparing the mounting areas, insert all switches and circuit breakers into the panels before mounting. Switches are installed into the panel from the front, and the circuit breakers are installed from the back.
4. Using supplied connectors, wire each switch to the accessory it will control. The use of 12 gauge wire is recommended. (See wiring diagram below).
5. Apply the appropriate accessory label under each switch.
6. Mount the panel and re-connect the battery.
